**PROJECT BY:
RIYASAT INFRA DEVELOPERS
PVT.LTD.**

PERGOLA

It is a structure in a form of shelter, amid rain shower and block the harsh sun rays in summer.

SHOPPING AREA

Well manage inhouse shopping area will give additional benefit in this township.

ENTRY GATE

Beautiful and designer entry gate along with boom barrier and CCT camera will be provided. It will ensure the security of the township.

LED STREET LIGHT

Approx 6.5 to 7.5 mtr. high modern look street pole with LED light & control panel.
(45 watt LED on each pole)

INTERLOCKING ROAD TILES

Interlocking tiles with fully compacted base having low maintenance cost surface.

PROPOSED LAYOUT PLAN OF "GOVINDAM HOMES"

RERA NO.: RAJ/P/2024/2996
AT VILLAGE - GOVINDPURA, THE.-SANGANER, JAIPUR

OUTER BOUNDARY

Stone masonry with barbed wire fencing is being done in the entire township. this will also ensure the security of the township.

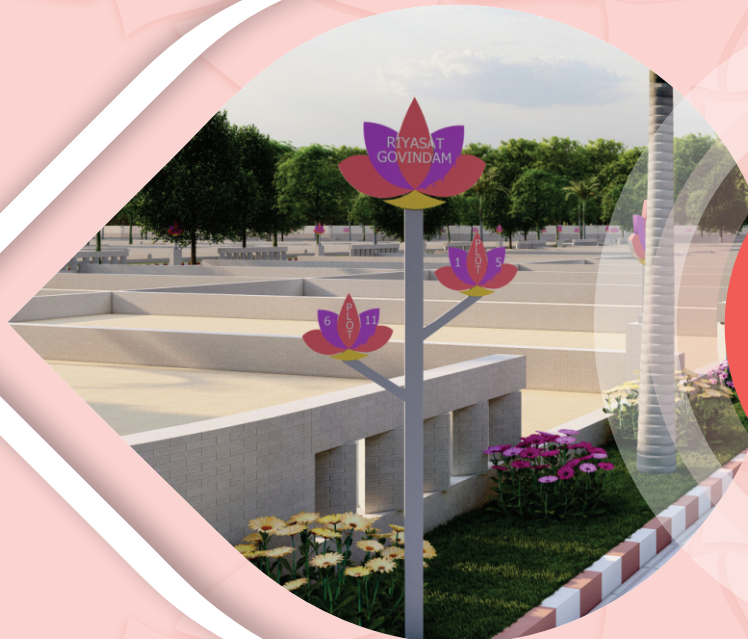

PLOT DEMARICATION

Differentiation between plots by attractive plot demarcation.

STREET DEMARICATION

This Street signage indicates the house number, which makes the task of searching specific house easier.

PLOT BLOCK BOUNDARY

Proper block boundary will be there for the division of different blocks by 3 layer solid blocks.

UNDERGROUND SEWERAGE LINE

Toilet and kitchen sludge will be discharge through DWC pipe / precast manhole to sewerage pit.

UNDERGROUND ELECTRIFICATION

HT & LT electric cable for the whole township.

HARVESTING LINE

Rain water will flow from DWC pipe to harvesting filtration tank. Then this recycle water will be used for land recharge through harvesting boring, that will be ultimately increased the water level of that area.
